

Envirotainer°

Stockholm, July 22 2009

Envirotainer's bi-annual review of the network stations has been concluded. The outcome is that

- MEM (Memphis) becomes a Non-Network Airport on October 1st 2009.

A complete list of the 45 stations in the Envirotainer network can be found on our website, www.envirotainer.com. The next potential change to the Envirotainer network would take effect on April 1st 2010, with a 3 month notice period in advance.

Dear Business Partner,

Envirotainer is continuously adapting its network to the needs of the industry. In order to provide the pharmaceutical industry with high-quality services and availability, the Stations need to be as close as possible to the export markets. The network undergoes evaluation two times per year to determine whether it needs to be adapted to the current demand. Both a potential expansion and reduction of the network has been reviewed in order to enable cost efficient and convenient services for our customer base.

Upgrades:

No upgrades of stations will take place at this point.

Downgrades:

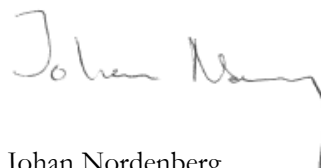

Due to lack of outbound business demand, we have taken a decision to downgrade MEM (Memphis) from Station to Non-Network Airport (per official Envirotainer Station List). This means we will cease to perform "ground-handling service" in this location (container return, cleaning, checking and container release) as of October 1st 2009. It will still be possible to perform business with our partner airlines and forwarders to and from MEM with the Extra-Network Routing Option. Extra-Network-Routing enables our customers and partners to move their temperature sensitive products in our containers to such destinations and return the unit afterwards back into our Network. Envirotainer grants 7 days deduction from entire Lease period for the return; according to standard Master Lease Agreement.

If you have further feedback on how we can improve our offering, you are more than welcome to share your thoughts with us through the email address sales@envirotainer.com. If you would like additional information about this network change, please do not hesitate to contact your Account Manager or one of our Operations Centers in Dallas or Frankfurt office (see address information on www.envirotainer.com) or email us at sales@envirotainer.com.

Yours sincerely,

Gabriel Andersson
